Global network

**We, as a family,  
provide innovative A to Z solutions as your global partner.**

Founded in 2000, DreamCIS, with 2000+ project experience, provides full-scope services including Phase 1-4, rPMS to NIS. After DreamCIS was acquired by Tigerméd in 2015, DreamCIS enhanced its global network and became a step closer to global CRO by SOP integration with Tigerméd. DreamCIS has reinforced its presence as Korean TOP clinical CRO by listing on KOSDAQ market as the industry's first in 2020. In 2022, DreamCIS welcomed MediTip, No.1 IND/NDA consulting service provider in Korea, as a family to provide A to Z, one-stop service to customers, to enlarge its business area and to continue its growth as top global CRO.

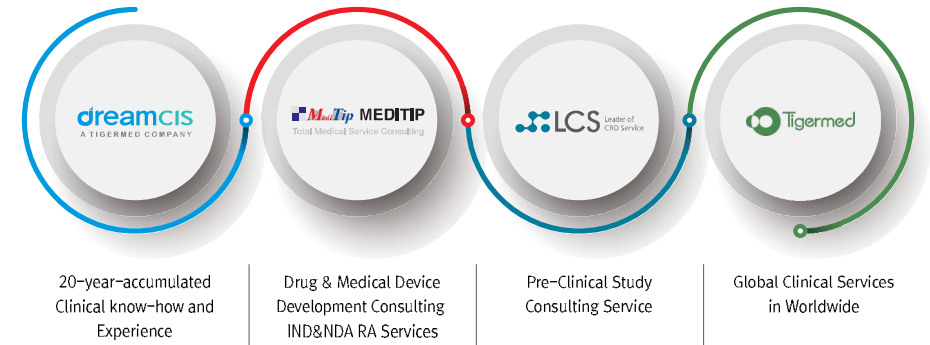

Founded in 2007, Meditip guides you into Korean and global healthcare market with intelligence, in-depth knowledge and experiences. Meditip has rich experiences in successfully collaborating with global leading bio-technology suppliers for Korea and global market entry issues, pre-market regulatory affairs, post-market compliance affairs, etc. As Korean TOP IND/NDA consulting service provider, Meditip is ready to provide high quality of intelligence that is crucial to your business success in Korean and global market.

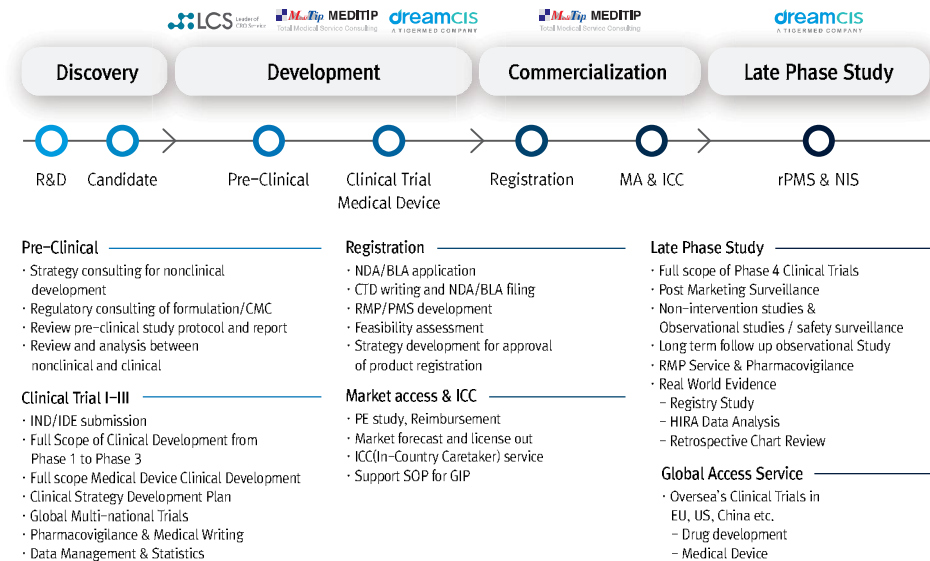

LCS, founded in 2017, is a non-clinical consulting and project management agency. LCS offers the best service collaborating with professional research organizations. We provide R&D service consulting for lead optimization, non-clinical consulting for IND/NDA of new drug and biomedicine, etc. LCS promises to lead our clients' successful business through our various experiences, know-how, professional resources and special network with cooperative organizations.

# One Dream. One Family.
